Professionally recognised
programmes that link
Personal Development to
Business Needs

Positive Success Group

We are an established professionally recognised training organisation specialising in the area of linking personal development with business needs. Our range of courses for adult learners are always in demand with people looking to advance their academic qualifications and improve their job prospects.

Your individual development is at the core of all our courses and we ensure the learning you receive is relevant to your needs. Courses are designed with the students in mind and are both accessible and flexible. There is a choice of part time, day or evening, midweek or weekend and short or long courses.

Courses cover a wide variety of areas, including Coaching Practitioner, Career Coaching, Human Development, Emotional Intelligence, Leadership and Train the Trainer.

We are committed to providing academic excellence and offer a wide range of diploma and certificate courses that suit both individuals and businesses. We are registered FETAC course providers as well as being aligned to national and international professional accreditation bodies and to FÁS for awards

Our clients recommend us – this is what they say..

Career Benefits

“In terms of career, the course inspired me and encouraged me to want to help others, seeing what it did for me personally.

Maureen Hewitt and her team are exceptionally professional and expert coaches, and therefore they prepare their students to the same high standards.

All of the above has prepared me to become a confident coach and to create a Coaching business that has found it's niche and is growing rapidly”

A. Caterecha
New Business Owner

Individual Support

“I would like to comment on the support that Positive Success Group offer to all their past students.

The networking events that they arrange where we come together to bounce ideas off each other, pitch our business and courses, present our new ideas, express our worries, spot common obstacles, share solutions...It is very instrumental, particularly for small, new businesses such as mine that need as much exposure as possible”

PSG Graduate

Course Delivery

The delivery with PSG is fun and interactive and creates a really safe learning environment for individuals and executives of all levels. There is a real sense of authenticity and a genuine interest to learn more about the business and goals in order to provide the right level of service.

G. Farrell
Head of HR Operations
